

## *Riesling 2004 Clos Sainte Hune*

*An exceptional terroir, exclusively planted in Riesling, located in the heart of Grand Cru Rosacker, in Hunawihr. This Clos represents 1,67 hectares and has been the entire propriety of the Trimbach Family for more than 200 years.*

*The calcary soil allows this Riesling to develop a specific aroma and a wonderful concentration of fruits. Dry yet succulent, of phenomenal complexity, this wine develops extraordinary aromas of minerals after a few years in bottle.*

*The plot, which is approximately 50 years old, is south south east exposed and the yields are very low, about 40 to 50 hectoliters per hectare.*

*Annual production reaches about 8000 bottles, depending on the vintage. That makes the wine so unique that Clos Sainte Hune is looked for by many collectors all over the world.*

*Of great longevity and very rare, Clos Sainte Hune takes at least seven years to reach its peak. The best sommeliers from our region and some journalists call it «La Romanée Conti d'Alsace».*

*The 2004 vintage develops very ripe Riesling aromas with a mineral expression and a harmonious freshness. The wine is very precise and full bodied, very elegant and will age for another 10 to 15 years.*

*Alcohol: 13,00 % ----- Total Acidity: 7,0 g/l (tartaric acidity) ----- Residual Sugar: 5 g/l*
